## Our Vision

Jeffrey Whitsett, MD realizes his vision by opening leading-edge eye care center in Katy this fall

JEFFREY WHITSETT, MD

After 22 years in practice, Dr. Whitsett is celebrating a lifelong dream of opening a state-of-the-art Vision Center in Katy. Located on Kingsland Blvd., just west of the Grand Parkway. The center not only has comprehensive, leading-edge vision care services, but is also one of the few Gold LEED (Leadership in Energy and Environmental Design) certified medical office buildings in Katy.

"We are committed to providing Katy with the latest advances in eye care," says Dr. Whitsett. "The immediate future has several new innovations including: laser-assisted cataract surgery, optwave refractive analysis (ORA), new multifocal lenses, advancements in surgery correction of astigmatism, and new techniques to lower intraocular pressure during cataract surgery."

### REVOLUTIONARY VISION TECHNOLOGY

From new intraocular lens technology, to revolutionary ways of lowering intraocular pressure for glaucoma, Dr. Whitsett says the advances at WVG are constantly evolving. WVG has recently completed several FDA studies, which hold great promise for advancements in dry eye therapy, and IOL technology.

### ALL VISION SERVICES IN ONE CENTER

Along with Dr. Whitsett, his partners Cybele Woon, MD, Jesse McKey, MD and David Fu, OD will provide comprehensive medical and surgical eyecare including micro incision cataract surgery and custom Intralase Lasik. Dr. Woon is a neuro ophthalmologist focusing on neurological diseases of the eye. She also will perform Botox and Juvederm for those patients interested in physician administered cosmetic services.

### WELCOME DR. JESSE MCKEY

Whitsett Vision Group welcomes Jesse McKey, MD to our center. Dr. McKey is a comprehensive ophthalmologist with expertise in cataract and refractive surgery. He has done extensive research in the field of glaucoma and cataract surgery. Dr. McKey completed his residency at the prestigious Willis Eye Hospital in Philadelphia, one of the top eye hospitals in the nation.
