THANK YOU BELHAVEN UNIVERSITY

I'm completing my masters degree and life is better than ever!

LIFE IS GOOD AND I'M LIVING THE DREAM

Leif Lopez, 34, left an abusive relationship, lost his house, his job, and his support system. He always knew he wanted to go back to college and get a Masters Degree. When a trusted friend told him about Belhaven University, he decided to enroll. "I have basically transformed myself. I was able to land a better job than I could have dreamed of and I work in the industry I have always wanted to be in," says Lopez. "Today, I am living the dream. I love what I do. I love going to work everyday and I love where my life is headed after I put in the work to finish my Masters Degree. My family is very proud of me."

I want her to be as proud of me as I am of her.

Leif, an actual student, is now working toward his MBA and is an Assistant Controller at an oil and gas company.

I always knew I wanted to go back to school for a Masters Degree. The primary reason for wanting to continue my education is for career advancement. I had a discussion with my boss before I enrolled and he said one of his biggest regrets was not getting a Masters Degree. He felt that not having it kept him from receiving certain promotions throughout his career. I didn't want to have those same regrets.

WHY DID YOU CHOSE BELHAVEN UNIVERSITY?

It's so convenient and the classes are nothing like I have ever experienced before. In spite of the four hour class, I actually leave feeling refreshed most days. The class sizes are small so a lot of the same people are in my classes again and again, because of that we have formed tight bonds which makes going to class enjoyable.

WHAT IS DIFFERENT ABOUT BELHAVEN?

The college actually cares about you as an individual. To Belhaven, the students aren't just numbers or dollar signs. When I walk into class or the office, people actually know me!

DO YOU FEEL PREPARED FOR THE WORKFORCE?

I don't *feel* prepared for the workforce. I *know* I am prepared.

HOW HAS IT CHANGED YOUR LIFE?

I love what I do, I love going to work everyday and I love where my life is headed after I put in the work to finish my Masters Degree.
